Summary

Junior Software Engineer with experience building responsive web applications, interactive dashboards, and REST API integrations. Skilled in JavaScript, React.js, Vue.js, Node.js, Express.js, and Laravel, with hands-on experience across front-end and back-end development, including CRUD features and database design using MySQL and PostgreSQL. Familiar with TypeScript, Git, Docker, Linux, and modern development tools, with a strong focus on writing clean, maintainable code and collaborating effectively within a team.

Work Exprerience

Junior Front End Engineer | Freelance
PT Summit Global Technology | Tangerang, Banten

January, 2026 – Mei 2026
Fulltime - Onsite

- Developed responsive landing pages using Vue.js, HTML, CSS, and JavaScript.
- Worked closely with the Frontend Team Leader to review UI slicing results, ensuring implementation matched design requirements and responsive standards.
- Optimized layouts for desktop and mobile devices.
- Built interactive dashboards using React.js, Ant Design, and ECharts.
- Developed reusable UI components for data visualization.
- Integrated REST APIs to display dynamic application data.
- Improved user experience by creating responsive and maintainable interfaces.
- Integrated image upload using Amazon S3.

Project Experience

JobCareer - Job Portal Platform | Live Demo | GitHub
Tech Stack: Laravel, PHP, MySQL, Blade

- Developed a full-stack job portal platform supporting job posting, vacancy management, and online job applications.
- Designed and implemented database relationships and backend business logic using Laravel and MySQL.
- Developed CRUD functionality for job postings, applications, and applicant management.
- Built responsive user interfaces optimized for desktop and mobile devices.
- Integrated frontend interfaces with backend services and database operations.

Kopi Nusantara - Coffee Shop Admin Dashboard | Live Demo | GitHub
Tech Stack: Next.js, React.js, TypeScript, Node.js, Express.js, Prisma, JWT, Ant Design, ECharts, Echarts

- Developed a full-stack admin dashboard for a coffee shop to monitor revenue, cups sold, customer traffic, and category sales in one overview page.
- Built interactive data visualizations (dual-axis line, bar-chart, and Pie charts) using ECharts with tooltips for daily and hourly sales analysis.
- Developed REST APIs with Node.js and Express.js, and implemented JWT-based authentication to secure admin access.
- Used Prisma ORM for database access and management of products, orders, and customer data.
- Built a responsive, reusable UI with Ant Design, including sidebar navigation for products, orders, and customers.

Technical Skills

Front End : React.Js, Vue.js, Next.js, Tailwind CSS, Bootstrap, Ant Design, ECharts, Swiper.Js, Gsap(basic).
Backend : Node.js, Express.js, PHP, Laravel 10, REST APIs, JWT.
Databases : MySQL(Basic), PostgreSQL (Basic).
DevOps & Deployment: Docker(basic), Jenkins(basic), Linux(basic), AWS S3.
Tools : Git, GitHub, Postman, Jest, Figma(basic), Adobe Photoshop(basic), Insomnia, Claude, ChatGpt.

Certifications

Belajar Dasar Pemrograman Javascript
Dicoding • Sep, 2025 (Issued) – Sep, 2028 (Exp Date).
Belajar Membuat Aplikasi Web dengan React
Dicoding • Jul, 2025 (Issued) – Jul, 2028 (Exp Date).

Education

Universitas Terbuka — Bachelor's Degree in Information Systems 2020 – Present
Relevant Coursework: Web Development, Basis Data, Algoritma, Struktur Data
